Dear Parents and Junior Student:

On October 25th all Junior students took the PSAT/NMSQT assessment. Your child can now access their score report online at www.CollegeBoard.org. They will also be provided a paper copy of this report at their Junior class meeting on January 9th. Think of your child's PSAT/NMSQT score report as a roadmap. The report shows what your student is doing well and what they should work on to get ready for the SAT and for college.

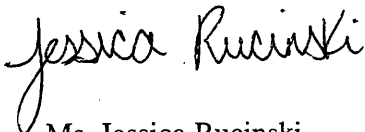

Your child's SAT Score is very important to their future plans and we want to provide every opportunity for him or her to be successful. We are encouraging students to participate in one of 3 SAT preparatory classes that we are offering this year. Our test prep programs from Cambridge, College Board, and Khan Academy are designed to increase test scores on the exam and are individualized to meet the needs of each student. Descriptions of the programs and a registration form are attached. The expense for all programs will be covered by Bremen High School, resulting in no out of pocket cost for your family. This is an incredible opportunity for your child.

Since the SAT assessment is designed for those students who plan to attend a four-year college/university, the focus is on the students who have completed the recommended college preparation courses. The recommended college bound core courses for juniors, as defined by SAT, include the following:

- Three years of English
- Three years of Math (Algebra I, Algebra II, Geometry)
- Three years of Social Sciences/History
- Three years of Natural Sciences (General, Biology, Chemistry, Physics)

On Tuesday, January 9th we will host an Informational Meeting at 6:30 PM in the Bremen IMC to explain your student's PSAT/NMSQT Score Report and discuss the free preparatory classes and resources that are available for students as they prepare for the upcoming April 10th SAT Test. The presentation will be offered in English & Spanish. All programs will be discussed in detail so that we can assist you and your child in determining the best course of action for their SAT preparation needs.

Sincerely,

Ms. Jessica Rucinski
 Assistant Principal for Teaching & Learning
